# What is Mudra?

- Mudra means “seal” or “closure” in Sanskrit. We use these gestures mostly in meditation or in pranayama practice to direct the flow of energy within the body by using the hands.
- Different fingertips are connected with areas in the body and the brain. (GERTRUD HIRSCHI Mudras : yoga in your hands)
- When we place our fingers in yoga mudras, we stimulate different areas of the brain and create a specific energy circuit in the body.

A major tenet in traditional medicine is,  
**EVERYTHING** is made up of the 5  
elements. So every interpretation is  
based on the 5 elements

# Universe and Humans

- The universe is made of five elements, and each of the five fingers is represented by one of these elements.  
(Ayurveda)

# The Five Elements

- Everything in nature is made up of five basic elements: earth, water, fire, air, and space. Knowledge of the five elements allows the yogi to understand the laws of nature and to use yoga to attain greater health, power, knowledge, wisdom and happiness.
- Knowledge of the five elements is an essential pre-requisite for more advanced yoga practice because the elements form the world we live in and the structure of our **body-mind**.
